INFRASTRUCTURE: NETWORK OF HALF-WAY HOUSES

Half-way houses
(**Vilnius**, **Pravieniškės**,
Kaunas, **Alytus**,
Marijampolė,
Panevėžys, **Šiauliai**,
Tauragė). In total **192**
places. Expecting to
open (2024 m.) soon in
Plungė (28 places).

New probation activities in pilot prisons

Probation teams

(Social workers, mediators, el. monitoring specialists)

- More individual attention to clients
- Better preparation for Probation period
- 14 new type of personnel in probation service

Halfway house

(Tauragė, Plungė)

- New type of activity for Probation service
- Direct collaboration with Prison service
- Dealing directly with communities

TOG units

(Pravieniškės, Vilnius)

- Approved the official guide for the unit
- Having 5 clients outside on a parole already (4 of them – success stories)

Electronic monitoring

Legal part

(Legislation, strategy, internal documents)

- 2021 June
- Many changes in the legislation department:
 - automatic release from prison,
 - alternative sanctions

Dealing with provider

(Equipment, Software, dealing with issues)

- In total through the project – 4791
- 29k clients flow per year
- 14 clients at the given moment
- Staff number stayed the same

Post-project period

(upgrading the equipment to improve quality of service)

- Changing the provider
- Improving quality of the equipment
- Thinking of new methods: remote regular check ups

Changes in Probation within the Project frame

Separated from Prison Department

In 2022

- Started implementing our own activities

Started interinstitutional cooperation

In prisons

- Started working in prisons full time
 - Started to run Halfway house
 - Actively working in a TOG unit

Probation

Implementing new activities

Establishment of new positions

- Hired 20 extra employees
- Bought extra equipment to improve the working conditions for our officers

The future

IT solutions, trainings, motivation

- Planning to focus more on soft measures: internships, trainings
- IT solutions: Probation App, unified phone line and online training platform
